Professional Experience

Senior Full Stack Developer, SoftUP GmbH 12/2022 – 11/2023
Munich, Germany

- Orchestrate the development of a cutting-edge **Next.js application**, seamlessly integrated with a **WordPress headless CMS** used by more than **200 thousand users monthly**.
- Engineered a **secure, and scalable full stack application**, aligned with both organizational requirements and client demands.
- **Collaborated** hand-in-hand with **product managers and UX designers** to translate design concepts into intuitive user interfaces, ensuring alignment with project objectives.
- Wrote **unit tests both in the React app and in WordPress** tackling any issue arising and making sure of the code standard!
- Proficiently address any identified issues or bugs, sustaining a seamless development and testing life-cycle.

WordPress Developer, Big Orange Lab 09/2021 – 12/2022
Chicago, Illinois, USA

- **Worked on turning designs into WordPress themes** guaranteeing a design integrity and seamless functionality across every page.
- Helped company **sparing thousands of dollars and hours in development** by creating an applicable product that would be both **easy to use for end users** and **developer friendly!**
- Engineered dynamic WordPress themes and plugins, fortifying website functionality and user engagement on websites used by more **than 1 million users** in total.
- Made sure of **following SEO best practices** driving substantial improvement in search engine rankings.

Senior Lead Web Developer, Clickservice 06/2018 – 09/2021 | Vienna, Austria

- Introduced team practices that helped us move faster such as **Pair Reviews** and **Stop and Fix**.

- Worked on projects using **Magento**, **PrestaShop**, and **WooCommerce** platforms used by **over 100 thousand users monthly**.
- **Set the code architecture standard** for other developers in the team in working on using custom made frontend components on projects in **Magento 2**, **WordPress**, **Laravel framework** and **ASP.NET MVC**
- Orchestrated integration between Magento 2, WooCommerce, and an external **ERP system** through **REST** and **SOAP APIs**.
- Contributed in designing internal client **company CRM** used by **tens of company's offices across Europe**.

Magento Developer, ATIS

11/2016 – 06/2018 | Tirana, Albania

- **Introduced Magento Frontend best practices** to the team in order to harness full power of the Magento framework.
- **Made theme development developer friendly** by introducing component styles and templates in the theme!
- **Pioneered the creation** of Magento 2 modules from inception, catering to tailored and specialized functionalities.
- Worked on integrating Magento with external ERP systems through **Rest and SOAP API** used by more than **200 thousand shops** and more than **2 million users**.
- Actively wrote tests leveraging Magento Functional Testing Framework.
